The engine in your 2004 Volvo S40 should be running when you perform a transmission fluid level check, otherwise it will be inaccurate. The video above shows where the transmission fluid dipstick is located in your S40 and how to check the transmission fluid level. If the transmission fluid level in your S40 is low, you need to add transmission fluid through the dipstick tube.

Hello From Sweden! We decided to give our 2004 Volvo S60 content car the famous "PCV Glove Test," where you remove the oil cap and slip a rubber glove over in its place. The PCV system should ideally have negative pressure so if you start your engine and the glove inflates, well, you've got yourself a problem.
