The Complete Idiot's Guide to Linux - Manuel Alberto ...

The Complete Idiot's Guide to Linux is yet another book for the newcomer to Linux. The layout of the book is just like others in the Idiot's series, so if you have read one of the others, this one will seem familiar. I've personally never understood why a company would choose to insult their customers by calling them "idiots" or "dummies", but it seems to work—this is a popular series.
