You can search for a specific title or browse by genre (books in the same genre are gathered together in bookshelves). It's a shame that fiction and non-fiction aren't separated, and you have to open a bookshelf before you can sort books by country, but those are fairly minor quibbles.

Kawasaki Mower Engine Smoking

White or blue smoke may indicate an oil spill on the engine. If you've recently changed the oil in your mower and the engine is emitting white or blue smoke, it's possible that some of the oil..

Lawn Mower Smoking? What It Means—and What to Do About It ...

Clean the Air Filter A lawn mower engine will puff out black smoke when the fuel and air mixture is too rich. Because there isn't enough air, combustion is incomplete, and the unburnt fuel in the combustion chamber turns to smoke. You see the same phenomenon when you burn leaves and pack them too tightly to allow air to circulate.

Why Is My Lawn Mower Blowing Smoke? | Hunker

Smoke is the easiest symptom to see when it comes to your engine having some issues. While it may look bad, an engine blowing smoke is often not a serious malfunction, but it can turn into something worse if left to its own. Different colors of smoke can indicate different problems with your engine.

Kawasaki - Lawn Mower Engines - Small Engines

Mower tipped over is the most common reason for white smoke. Usually, the customer turns over the mower to clean the deck or unclog the chute. This allows oil to enter the cylinder, and when the mower is restarted, the oil burns and turns your yard into a 70s disco. Sometimes oil will also leak from the muffler.

White Smoke From Lawn Mower | Lawnmowerfixed

Remedy: Consumers should immediately stop using mowers with the recalled engines and contact Kawasaki or a Kawasaki dealer to schedule a free repair. Kawasaki is contacting all known purchasers directly.
