For people with diabetes, language has an impact on motivation, behaviors, and outcomes. How we talk to and about people with diabetes plays an important role in engagement, conceptualization of diabetes and its management, treatment outcomes, and psychosocial wellbeing. A taskforce consisting of representatives from ADCES and the American Diabetes Association (ADA), convened to develop these guidelines using four guiding principles:

### Diabetes Language Guidance

This book is written in an interesting, clear, concise manner that shows how important language is. The book should be read by young people especially, to show how language is important when communicating for pleasure, business, politics or just for the love of the spoken or written word. The book uses examples to make certain points.
