Scia Engineer Price - agnoleggio.it

SCIA Engineer supports Open BIM and is IFC certified for import and export. In 2020, the company also launched SCIA AutoConverter, allowing engineers to join an OpenBIM process. This game-changer enables structural engineers to automatically convert structural models from any 3D structural software to create high quality and accurate analysis models.

NEMETSCHEK: SCIA

Scia Engineer is an integrated, multi-material platform for structural analysis and design of all kinds of projects. It can be used for design of steel, concrete, timber, aluminum, and steel-concrete composite structures with worldwide application thanks to the integration of numerous international building codes.

Scia Engineer

Scia Engineer is an analysis & design solution by Nemetschek Scia, a member of the buildingSMART Alliance. It is the only structural analysis software that is certified for supporting Open BIM. This enables you to easily leverage models created by others into analysis, and pass back optimized structural models to designers, fabricators, and contractors.

Scia Engineer is an integrated, multi-material ... - ALLBIM

Scia was founded in Belgium in 1974, and has acquired 20,000 customers - making it Europe's largest vendor of structural engineering software. Shortly after going global in 2006, it was acquired by Germany's software developer Nemetschek AG, best known in Europe for its architectural software, Allplan.
